

**FEBRUARY 22, 2011**

**9 A.M. TO 5 P.M.**

**Clarion Inn and Convention Center  
1450 Riverbend Drive  
Douglas, WY**

**Presented By: American Stewards**

Coordination is a process mandated by federal law that requires federal agencies to coordinate their plans, programs and management activities with local governments. It is a powerful tool that can be used to protect private property rights, productive uses of land, and local economies from burdensome government regulations. If you are a private landowner or live in rural America the issues and solutions addressed during this class will affect you at some point. The eight (8) hour course packs in six powerful lessons showing you how to implement coordination with federal and state agencies to protect your local economy, property rights and way of life. In one day, you will learn how to change your community's future.

Visit <http://americanstewards.us/coordination/> for more information.
